

How to Use The World Catalog (WorldCat)

World Catalog is a world-wide catalog of books and materials for your use.

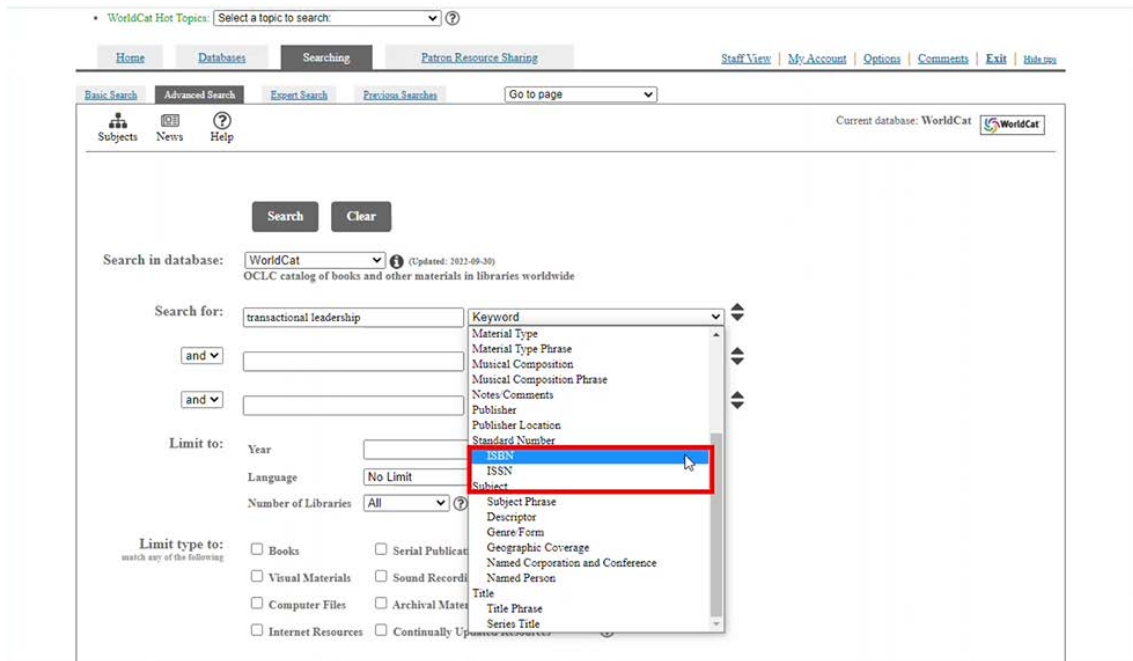

Accessing WorldCat

To get to World Catalog, start on the Benner Library homepage at library.olivet.edu. Under the Books & Media tab, click on World Catalog.

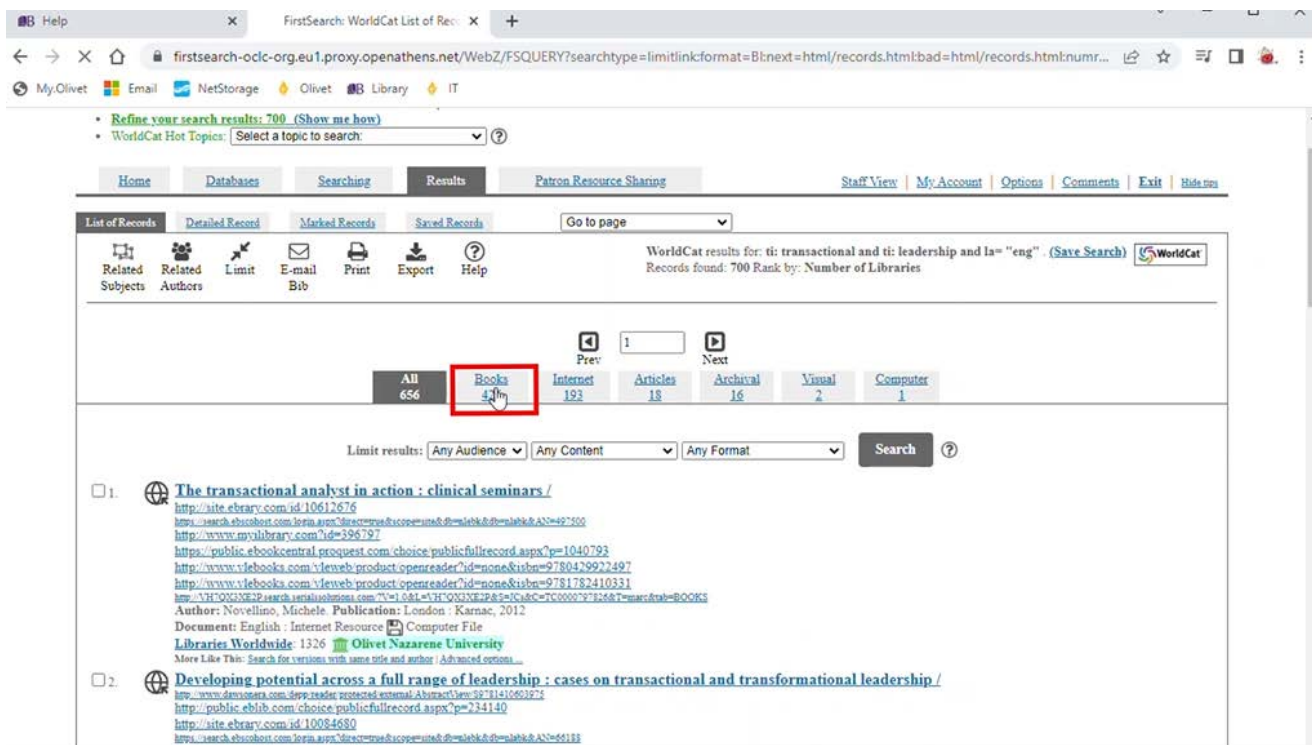

The image shows a screenshot of the Benner Library homepage at library.olivet.edu. The page features a navigation menu with tabs for 'Subject Guides', 'Books & Media', 'Journals & Articles', and 'Help'. The 'Books & Media' tab is highlighted with a red box. Below the navigation menu, there is a large image of a person in a library reaching for a book on a shelf. A purple box with the text 'library.olivet.edu' is overlaid on the image. Below the image, the 'Books & Media' section is displayed, containing several sub-sections: 'Catalog Links', 'eBook Links', 'Physical Book Information', and 'Other Information & Links'. The 'Catalog Links' section includes a list of links, with 'World Catalog (WorldCat)' highlighted by a red box. The 'eBook Links' section includes links for 'eBook Collections', 'Find eBooks', 'Digital Commons', and 'Course eBooks'. The 'Physical Book Information' section includes links for 'College Life Collection', 'Dewey Decimal Classification', 'Holiness Collection', and 'Textbook Information'. The 'Other Information & Links' section includes links for 'ACL Reciprocal Borrowing', 'Area Public Libraries', and 'Center for Research Libraries'. A search bar is visible in the top right corner of the page.

Once in WorldCat, type your search terms in the first search box. In the dropdown menu, you can search by author, ISBN, ISSN, title, and many more. If you search for the ISBN or ISSN number, make sure to type the correct number in the search bar in place of a search term.

In order to narrow the results to books only, click the corresponding tab above the results.

To display the most up to date books first in the results list, click the “sort” button in the upper left hand corner of the screen. In the first drop down menu, choose “date” and then click “Descending”. Click set.

If you are searching for a textbook, it is unlikely that you will be able to get a book that only has a few copies available worldwide. If the textbook that you are interested in is available in many libraries worldwide, there is a good chance that you will be able to obtain a copy of that book.
